Introducing New Monozone

Comfort Across All Body Parts

- Uniform support across entire mattress surface
- Seamlessly adapts to every position and contour
- Reduce toss and turn to improve sleep quality

ALL NEW WHITE

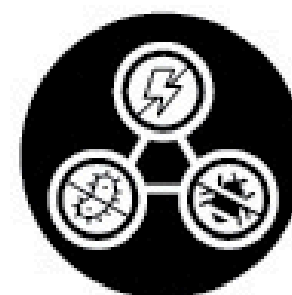

COVER FABRIC IS KNITTED WITH

GRAPHENE

Graphene is an ultra-thin and light material. Harder than diamond, about 200 times stronger than steel and it made of a single layer of carbon atoms arranged in a hexagonal lattice.

VITALSHIELD TECH

DUSTICBAC-FREE TECH

Tested by **SGS** BekaertDeslee's Graphene Fabric Improve **Vitality** Inside-Out

KNITTED COVER FABRIC WITH

GRAPHENE

VITALSHIELD TECH

Anion Release

Purify the air, makes you feel refreshed and alive. Enhance immune and respiratory system.

Eco-Friendly

No chemicals, drug resistance, and no threat to the environment or the human body. Oeko-Tex safety certification obtained.

Far Infrared

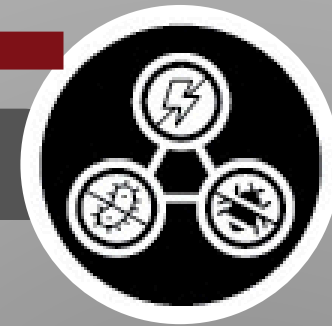

Ability to reflect ray back to the body that generated them and **improve blood circulation and enhance your sleep quality.**

KNITTED COVER FABRIC WITH

GRAPHENE

DUSTICBAC-FREE TECH

Anti Bacterial

Graphene turns antibacterial by accepting electrons, which stops bacteria from forming.

Anti Dust Mite

Graphene helps create a healthy sleep environment by keeping dust mites and allergens away from the mattress.

Anti Static

Guard against harmful electrical buildup in our bodies while we sleep.

100%

Natural Latex Firm

Provides Better
Airflow

Suitable for
any **body type**
& sleeping **positions**

The pride of Malaysians

Our own natural resources

CERTIFICATE & TEST

A-LITE

SERIES MATTRESS

03

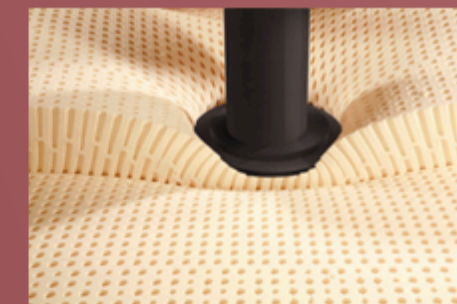

Cert & Test A-LITE Series Mattress

1. Malaysia largest latex bedding manufacturer
2. Malaysia 1st Aniline free aniline latex mattress

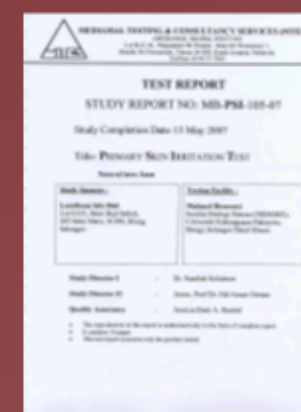

- ECO Institut: Napure latex was tested by this world-renowned German body to be:
1. 100% Natural, 0% Synthetic.
 2. Pure latex without fillers.
 3. Do not contain harmful chemicals like Pentachlorophenol and Tetra chlorophenol.
 4. Aniline Free!

1. LGA QualiTest GmbH
2. Napure latex passes Germany's LGA Quality Test.
3. 60,000 compression cycle of 1400 N roller showed a score of 97/100 (minimum quality score is 70).

1. Excellent Tensile Strength
2. Napure latex achieves Elongation at Break at 275, which far exceeds the minimum requirement of 150 of MS679: 1999 standards.

1. Skin Irritation Test
2. 24-hour contact of Napure on abraded skin found no signs of irritation.
3. Skin Sensitisation Test
4. 3 weeks induction of Napure on bare skin showed no sign of allergic reaction.

1. FDA Approved Standard
2. Napure uses rubber chemicals that achieve well above the FDA approved standard (low cost substitutes may emit harmful gases when heated).

SGS Tests on BekaertDeslee Graphene

Antibacterial Test

BekaertDeslee Graphene fabrics have potent bacteriostatic. **Antibacterial activity rate:**

Staphylococcus aureus - 92%
Candida albicans - 94%
Escherichia coli - 90%

Anti-Mite Test

BekaertDeslee Graphene fabrics have **Anti-Mites activity**

Backside result - 73%
Frontside result - 64%
(Standard 64%)

Far Infrared Performance Test

When Graphene absorbs heat and re-emits it as FIR radiation, it can have potential benefits for human health and comfort.

Far Infrared emissivity rate - 0.84 (Standard 0.83)
Temperature rising by - 2.4 (Standard 1.7)

Phenolic Yellowing Test

Phenolic Yellowing refers to the development of a yellow or brownish discoloration in fabric materials over time. From this test, BekaertDeslee Graphene fabrics graded 4 - 5 and the best grade is 5

Spill liquid onto mattress. Dry only using fan

Expose to corrosive fumes, gases, oils and solutions

Do not expose to direct contact with metallic object

FAQ

07

A-Lite

SERIES MATTRESS

FAQs

1 Question: What is the benefit of the graphene layer on the mattress?

Answer: The graphene layer on top of our natural latex mattress enhances durability, antibacterial & anti mite ensuring you sleep in comfort throughout the night.

2 Question: Is the latex used in the mattress truly 100% natural?

Answer: Yes, our latex was tested by this world-renowned German body, eco-INITIUT to be 100% Natural, 0% Synthetic. We don't use synthetic latex or harmful additives, making it an eco-friendly and healthy choice.

3 Question: How does the Mono Zone help with comfortability & support?

Answer: Our natural latex mattress offers Mono Zone support that allows for consistent comfort across the whole mattress. It also offers firm posture support across the entire mattress as it remove the specific zoning ergonomics.

FAQs

4 Question: Is the graphene layer safe and free from any potential health concerns?

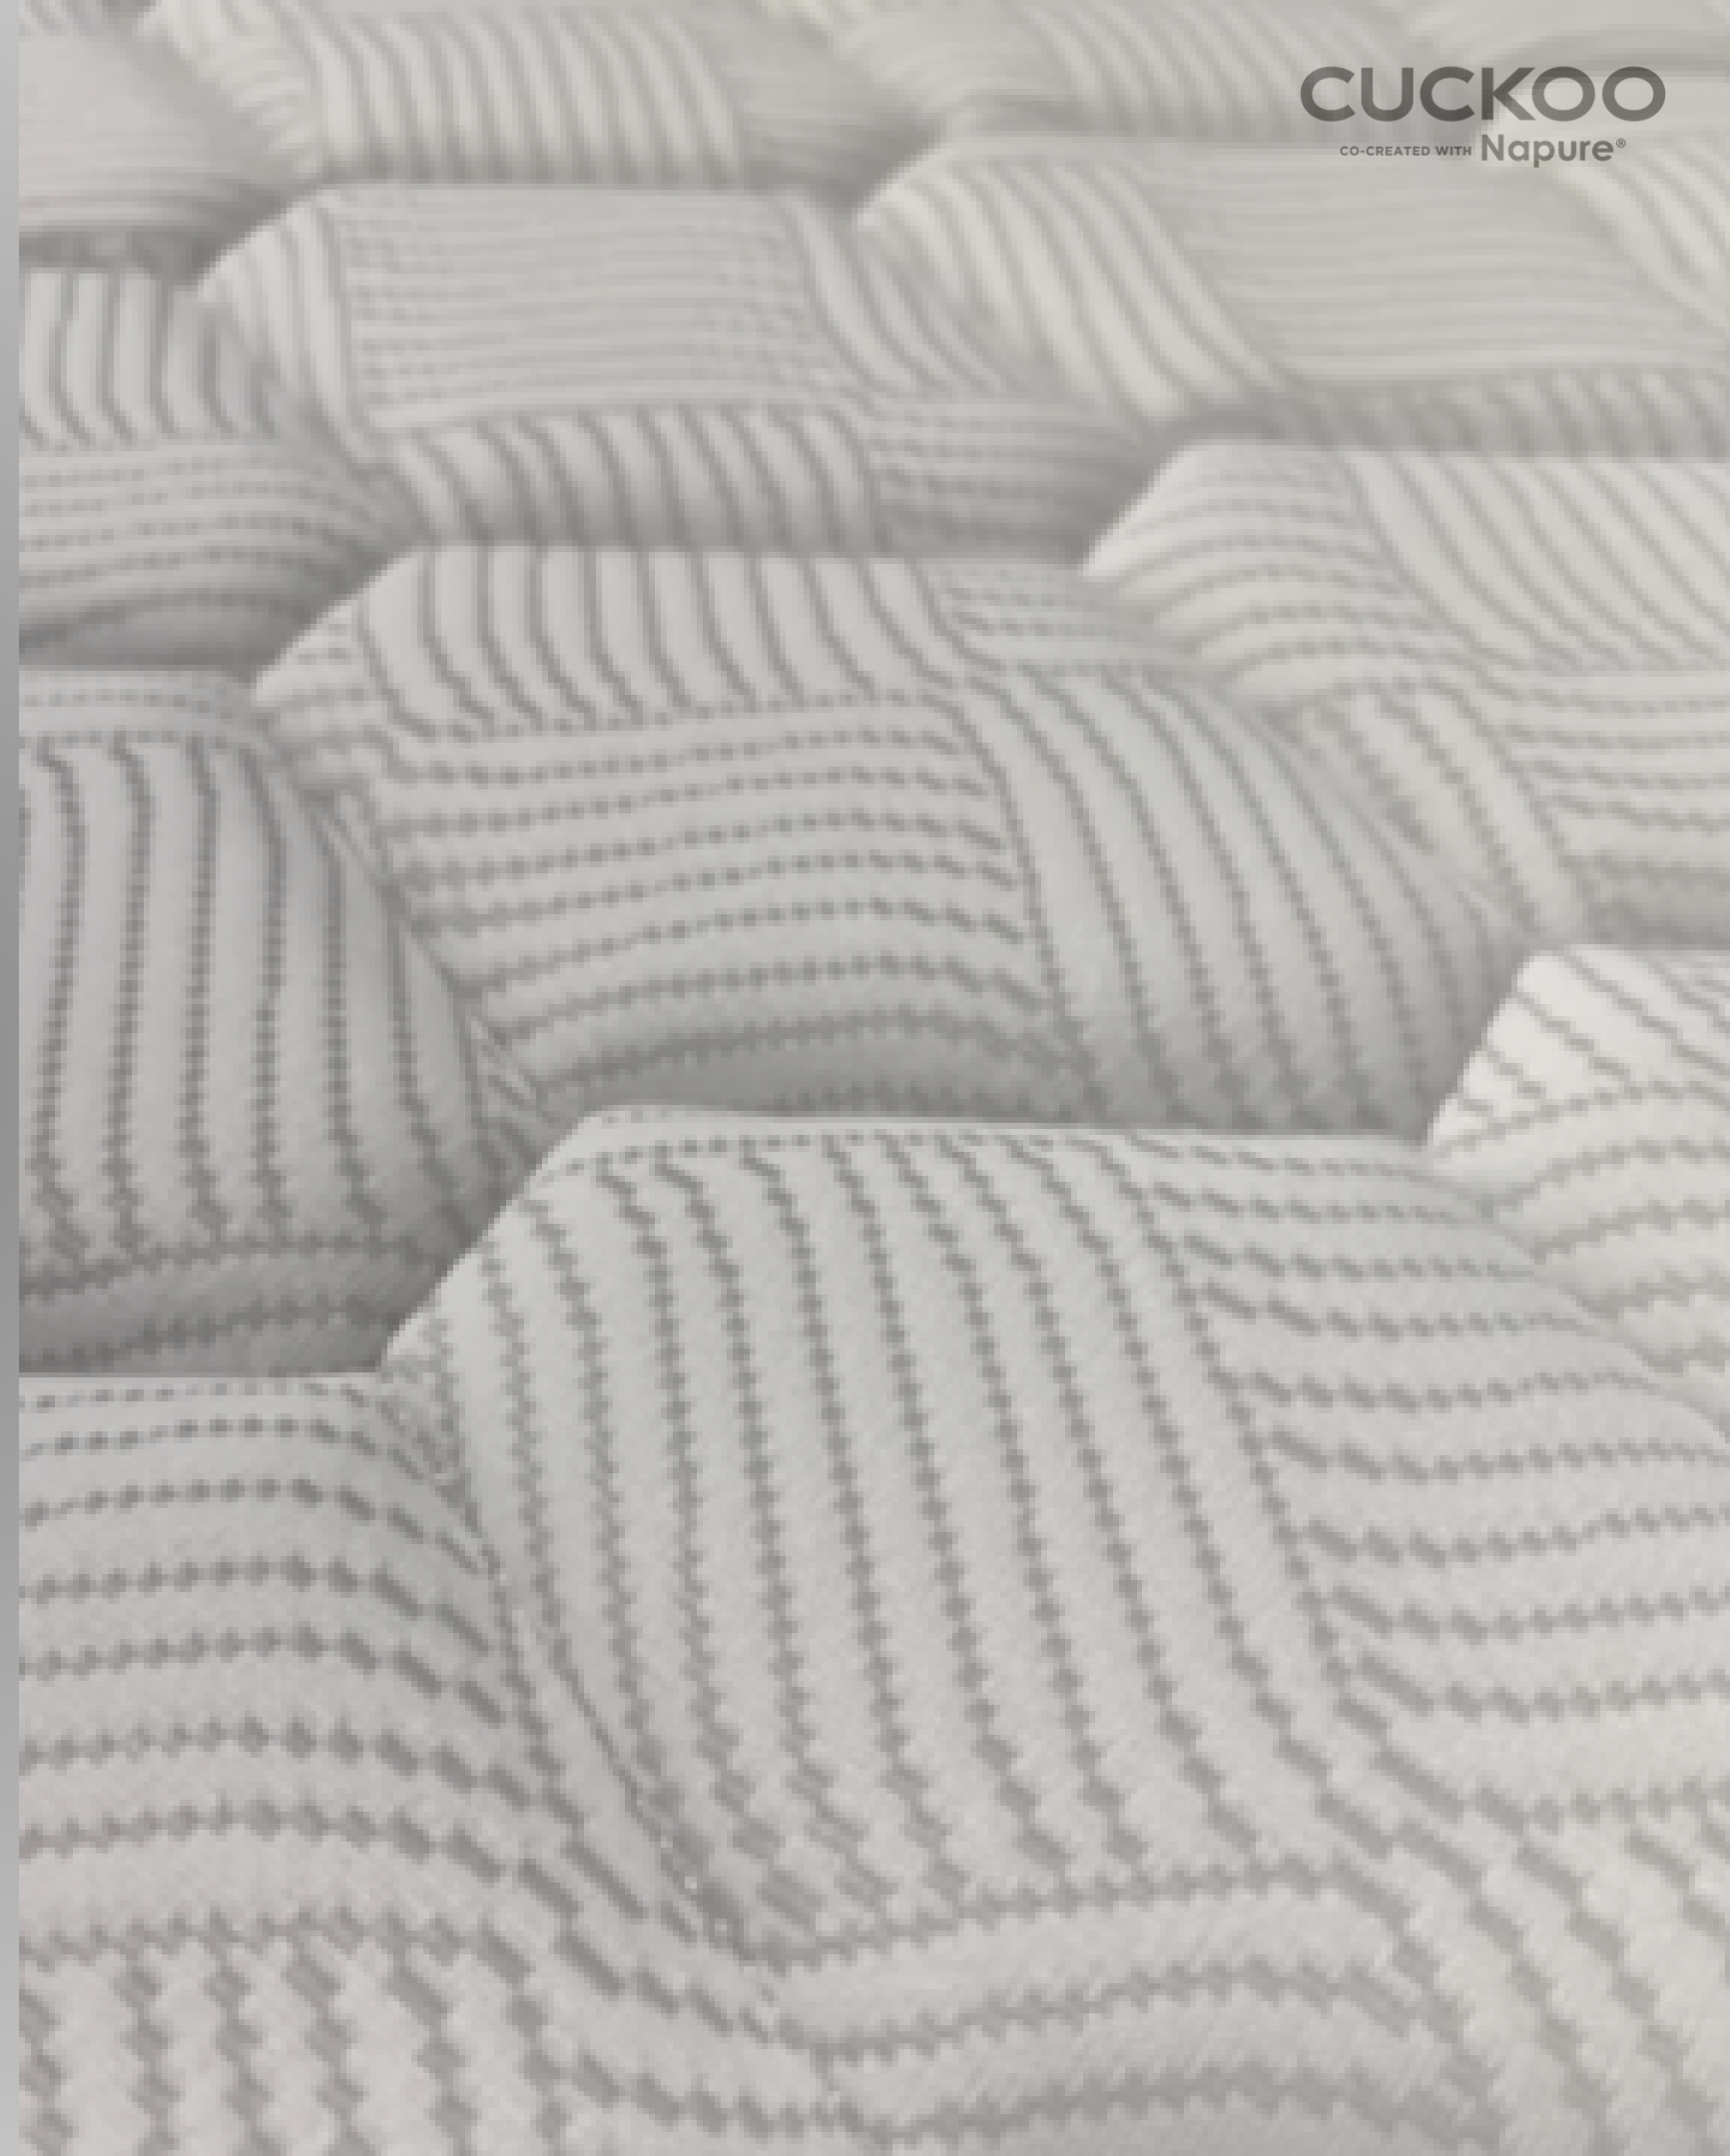

Answer: Yes, the graphene layer in our mattress is completely safe and non-toxic. It has been thoroughly tested for any potential health concerns and meets all relevant safety standards.

5 Question: What is the lifespan of this mattress, and does it come with a warranty?

Answer: Our mattress is built to last for many years. It comes with a *10-year warranty, ensuring your investment is protected. With proper care, it can provide comfortable sleep for a long time.

6 Question: Can I use any type of bed frame with this mattress?

Answer: Yes, our mattress is compatible with most bed frames, including platform beds, slatted frames, and adjustable bases. However, we suggest you to align the bedframe dimension with our mattress specifications. This ensures a perfect fit and enhances the overall sleeping experience.

Thank You
